# Engagement Approach

The Wolfpack portfolio offers a bouquet of services that complement each other as part of a broader Governance, Risk and Compliance (GRC) offering. We bridge the gap between business and technology teams.

Our experienced team operates across several modular business units, providing the exact mixture of skills according to each client's requirements. We strive to provide a high-quality service in solving real world challenges, including the transfer of much-needed skills to all stakeholders in our client environments.

Craig Rosewarne (Wolfpack Managing Director)

# Country Risk Management

## Key Risks Faced

### Skill Challenges

All countries face cybersecurity skills shortages. Awareness needs constant reinforcing.

### Critical Infrastructure

Cyberattacks on key infrastructure can have devastating effects on a country's security and economy.

### Cybercrime

Cyber adversaries are more relentless and sophisticated, requiring rapid response and industry collaboration.

## Wolfpack Solutions

**Scarce Skills  
Provision**

**Tailored Training  
and Awareness**

**National Cyber  
Risk Framework**

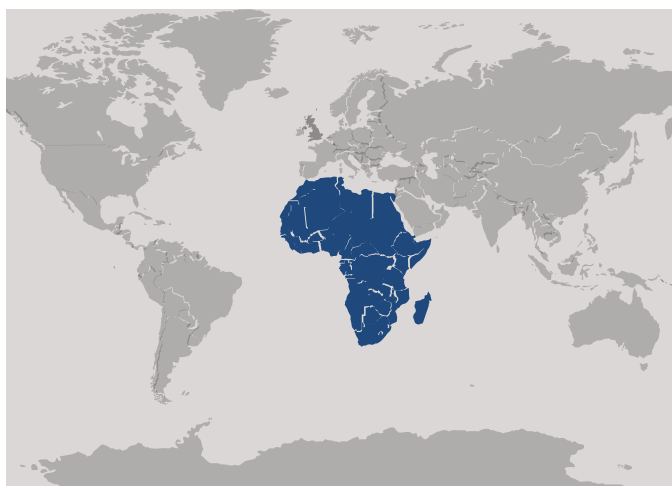

**School Cyber  
Safety Toolkit**

**Cyber Threat  
Platforms**

**Secure  
Communication**

## National Security

The top cyber threats facing countries today are diverse and complex.

These threats require a sophisticated and coordinated response from governments, private sector organisations, and individuals to mitigate the risks and protect critical systems and information.

# Company Risk Management

## Key Risks Faced

### Security Governance

The company's cybersecurity strategy must align with its business objectives and risk management approach.

### Cyber Risk and Compliance

Regular risk reviews and implementation of controls to mitigate identified risks and ensure compliance.

### Cyber Threat Management

Involves a variety of strategies, tools, and procedures to manage the cyber threat landscape.

## Wolfpack Solutions

**Scarce Skills  
Provision**

**Tailored Training  
and Awareness**

**Business-Aligned  
Consulting**

**Cyber Resilience**

**3<sup>rd</sup> Party Risk  
Management**

**Security Testing  
and Remediation**

## Cyber Risk Management

Companies of all sizes and sectors are at risk of cyber threats.

To mitigate these threats, companies must adopt a comprehensive and proactive approach to cybersecurity, including regular risk reviews, employee training, continuous monitoring, and investing in advanced security solutions.

# Community Risk Management

## Key Risks Faced

### Cyber Scams

All people are at risk of cyber scams, which can lead to identity theft and financial loss.

### Bullying and Harassment

Victims may experience significant emotional distress and depression, which may even lead to suicide.

### Community Programmes

Communities should take a multi-faceted approach to combat cybercrime by focusing on education, collaboration and victim assistance.

## Wolfpack Solutions

**Cyber Self Defence Programme**

**Tailored Training and Awareness**

**Cybercrime Investigations**

**School Cyber Safety Toolkit**

**COBRA Cybercrime Platform**

**Community Outreach Initiatives**

## Cyber Safety

Cyber safety is a shared responsibility that requires both individual users and organisations to be vigilant and proactive in protecting vulnerable people in the digital realm.

As technology continues to advance, the importance of cyber safety grows, making it an essential aspect of navigating the digital world.
